(54) VEST

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain a vest capable of excellently cooling a body, usable in a fire extinguishing operation, etc.

SOLUTION: This vest 1 is useful for keeping a body cool. The vest 1 is obtained by superimposing at least two sheets of air-permeable nonwoven fabrics, heat-sealing 2 the fabrics to form a great number of baggy space parts 3 and sealing a water absorbing resin in the baggy space parts 3 except parts close to a heart or parts to obstacle movements. The vest is usable by absorbing water in the water absorbing resin and cooled.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]
